Panel Lights

# Ways to mount an aluminum frame panel light to the ceiling

Step 1:

Twist off one side of AL frame screws and take out from constructure.

Step 2:

Fix the AL frame to the roof with M4 screws on both sides of drilling hole as illustration shown.

Roof

Roof

Plastic expansion screws

lifting
M4 self-tapping screw

Step 3:

Placing the panel light in the slot of AL frame along the level line as required. Please ensure the panel light is recessed in a stable and even position.
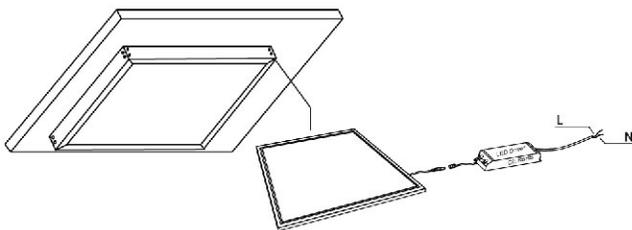

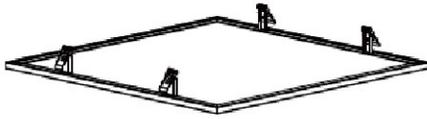

Step 4:

Connect the power driver to the panel hidden in lamp's back. Check the safety contacts. Tighten the missing constructure with screws to finish the installation.

L   N

Panel Lights

Spring mounted

Step 1:

Fix 4pcs spring fasteners to the panel as shown.

Step 2:
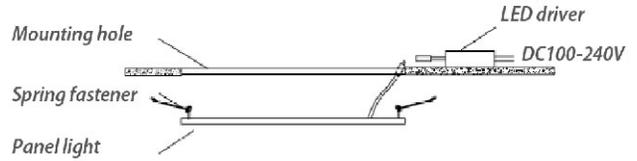

Connect the power input wire to the power supply, and the power output wire to the panel light.
Attention: turn off the power during this step.

Step 3:
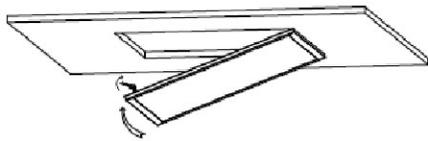

Fix panel lights to ceiling hole with springs.

Step 4:
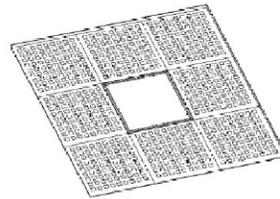

Installation finished.

Hanging installation

Step 1:

Fix the 4 sockets to the ceiling with screws.

Step 2:

Screw the 4 ropes to the sockets.

Step 3:
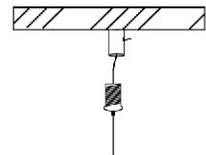

Fix the ropes to the ceiling

Step 4:
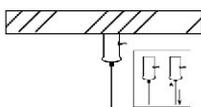

Connect the ropes to the panel.

Step 5:
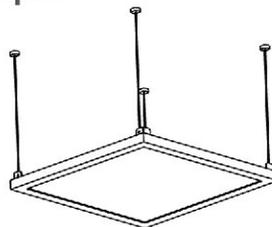

Installation finished.
